

Investing, through cycles!

What is the Buoyant Opportunities PMS?

A “good company” is different from a “good investment” - valuations matter. Different market-capitalization indices, sectors and stocks operate in cycles.

A simple ‘Buy and Hold’ framework misses out on the inevitability of cycles. Our Core & Satellite framework allows us to adopt as “Aggressive stance” when we endeavor to generate higher returns, and adopt a “Defensive stance” when we want to reduce risk.

Overall, it has resulted in endeavouring risk-adjusted returns beyond the benchmark, consistently over the long term.
